About Me

Web Developer graduated in Web Application Development (DAW), with experience in both frontend and backend development. I have worked with Angular and Alpine.js alongside Tailwind CSS to build modern user interfaces, and with PHP and Java for backend development using Laravel and Symfony. I enjoy writing clean code, learning new technologies, and working as part of a team.

Education

IES Ribera de Castilla *Valladolid, Spain*
Higher Technician in Web Application Development (DAW) *Sept 2023 – Dec 2025*

Experience

Web Developer - Internship (FP DAW) *Valladolid, Spain*
Eysa *Sept 2025 – Dec 2025*

- Frontend development using Tailwind CSS and Alpine.js. Implementation of requests and consumption of REST API. Backend development with Laravel. Frontend-backend integration in real projects. Collaborative work within a team environment

Projects

[Portfolio](#) *Feb 2026 – present*

- I developed this web portfolio to present my projects in more depth and with a stronger technical focus.

[Moderni web](#) *Sept 2025 – Dec 2025*

- Moderni Web is a website developed as my final course project (TFC). The purpose of the site was to represent the commercial side of a carpentry business and provide an online presence for its services and products.
